16. What is piezoelectric?
17. Tell your project? Applications?

18. Green steel

19. Methods to reduce carbon emissions from the steel sector

20. Biochar

21. Pyrolysis

Chairman:

Your interview is over,

Do you want to say something?

Choubey Sir extremely cordial, as a usual intro. (we are good people n will b having interaction), but don't get trapped, he will test on multiple occasions.

1-2 didn't answer... said don't know

1-2 didn't have an idea they guided or I asked for Guess...

Utility of mock:

- removes fear
- enables balance in answering analytical questions
- helps to keep up the tempo even after not answering 1-2
- questions will be different from mock n other transcripts, especially for work exp. people
