Your experience in the interview:

The cordial board, Felt like a round table conference. Took 5 minutes to internalize that I'm in an actual UPSC interview 😊

They gave sufficient time to think & structure your answer.

Utility of mocks :(if any)- helpful to present yourself in a formal setting but their feedback should be taken with a pinch of salt.

Chairperson: Read my DAF aloud. Asked whether I have any covid-related symptoms or not.

Mask remained on.
