### **Experience-**

Good, cordial board except M2

Since beginning giving weird expressions n after every answer also like not satisfied (hence I think it was just to scare me considering my age)

No grilling

No cross questioning

Felt like Question answer session

Easier than mock

Felt at home there

## **Mocks-**

**gave 7-8, really important, to avoid nervousness, to know expectations of board members, how to structure answer instantly, variety of possible questions but the real interview is quite different.**

Would recommend IAS hub mock, ksg, and Shubhra Ranjan.

Avoid Drishti 🙄

**Note** - The chair was office type with wheels n also high, so practice with such chair, how to sit especially girls (because saree n lesser height)
